G2 Systems Becomes Value Added Reseller for IBM Enterprise Data Management Solution
Leading Software Integration and Implementation Services Firm to Implement IBM Optim

Boston and New York – February 25, 2009 – G2 Systems LLC, an innovative software integration and implementation services company that provides programming and customization expertise to hedge funds, investment firms, and fund administrators, has become a VAR (value added reseller) for IBM’s leading enterprise data management product Optim. IBM Optim addresses critical business issues such as data growth management, data privacy compliance, test data management, e-discovery, application upgrades, migrations and retirements.

“We are pleased to be working as a value added reseller for IBM Optim,” said George Michaels, principal of G2 Systems LLC. “IBM Optim is the leading enterprise data management solution in the global marketplace and G2 Systems engineers have the in-depth experience needed in all of the key functions addressed by IBM Optim in any IT environment.”

About G2 Systems

G2 Systems LLC (www.g2systemsllc.com) is a leading software integration and implementation services company focusing on the investment community. With its roots in the proprietary technology/trading sectors, G2 is a combination of seasoned Wall Street veterans and some of the finest recent talent from the nation’s top engineering schools.

Furthermore, G2 specializes in the development of custom solutions for the challenges that front, mid and back office functions face in the processing of complex securities. G2 operates coast to coast with a staff of 25.
